well established training, research and production centers in handmade paper making.

Raw materials used in Handmade paper making

A wide range of raw materials such as paddy and wheat straw, jute, rags, cotton rags, hosiery cuttings, cotton linter, tailor cuttings, fibers (Jute /hump), bagasse, cotton stalks, grasses, waste paper etc., are used in making handmade paper. They are available abundantly and regularly from different sources. The proposed unit makes permanent arrangement for procuring raw materials in bulk from various suppliers.

Service Requirements and its availability for proposed manufacturing unit

- Water
- Power
- Building shed
- Drying shed
- Labour /work force
- Chemicals

The most common equipment / machines used for handmade paper making

Rag Chopper, beaters, Pulp Tanks, Calendar machine, Agitator, Hydraulic press, cylinder mould, Vat power drives machine, Iron box etc are major tools and equipments used.

All these machines and equipment are available within the country and can be easily procured by placing orders with suppliers.

2. Power 80 H.P.
3. Building 2,000 sq. ft.
4. Drying shed 3000 sq. ft.
5. Employment 20 persons/ shift

Equipments

The equipment and machines required includes:

- (i) Rag Choppers
- (ii) Beaters
- (iii) Pulp tanks
- (iv) Calendar machines
- (v) Agitators
- (vi) Hydraulic Press
- (vii) Cylinder mould, vat power driven machine etc.

Hydraulic Press

Economics

For producing, 40 tonnes of hand made paper annually the capital investment required is about US\$ 25,000 and the working capital US\$ 5,000. The unit is expected to earn a profit of US\$ 2,000 per year and provide employment to a group of 20 people.
